"A SPLENDID RECORD."

1878, - - - - \$24,445,000
1896, - - - - \$36,000,000
1898-99, - - - - \$49,700,000

Grit Senators—Grit Commons—Grit Grits—Gritting the enormous increase of expenditure of \$12,000,000 over the last estimate of the Conservative Administration for 1897-98, on the ground that the Conservatives during their eighteen years of office, increased the expenditure of the country by \$12,445,000. The reader will see that the Liberal Government has in two years succeeded in increasing the annual expenditure by \$12,800,000, while the Conservative Government, during 18 years, did not accomplish so extravagant a task. In other words, the Conservative Government increased the expenditure by about \$600,000 per annum, while the Grits accomplished the same in two years, running up the expenditure by \$6,400,000 per annum.

This is a very fair sample of Grit economy. What has the country to show for the Conservative increase of expenditure? Let us see—

The Canadian Pacific railway has been subsidized and set in operation.

The North-West has been surveyed, opened up to settlement and given representative government.

Experimental farms have been established and cold storage introduced.

Increased allowances have been made for the militia, and permanent corps have been formed.

A telegraphic service has been extended on the St. Lawrence.

A fishery protection service has been provided.

Dry-docks have been built at Quebec, Saginaw and Kingston.

The Welland canal deepening has been completed, the St. Lawrence canals have been deepened half way.

The South canal has been built.

A readjustment of the Provincial subsidies has been made, thereby adding materially to the annual expenditure.

Public buildings have been erected all over the Dominion and Harbours and Rivers dredged and improved.

These expenditures amount in part for the increased output of \$12,445,000.

The present Government has taken action to spend money at the rate of \$12,800,000. What are we getting for this of \$12,800,000 in two years?

When addressing a public meeting in Toronto, in 1893, the Hon. Mr. Laurier said:

"The Conservatives say to us, 'if you were to come to power you would not be able to decrease the expenditures and 'precipitate' economy.'"

"I do not believe that that would be a difficult task."

"It would not be difficult to economize one, two, or three millions."

Mr. Laurier declared to his constituents the other day that it would be quite possible to diminish the expenditures by four millions annually.

During the year to which Mr. Laurier was referring the expenditure was \$36,767,804, now in the second year of Mr. Laurier's reign he asks for less expenditure (\$49,700,000) so that, instead of reducing the annual expenditures by \$4,000,000, he and his economical colleagues have increased that sum by \$12,932,196.

Liberals who looked for retrenchment, tell us how like this "splendid record," which no delights the Globe!

during the last two years. The contents include carefully prepared summaries of the International Conference of 1887; the Chamber of Commerce Congress of 1894; extracts from Sir Mackenzie Bowell's official report of his mission to Australia in 1893; the Ottawa Conference of 1894; various proposals for a Customs Union from the "Statist" magazine; the third Chamber of Commerce Congress, 1896; Parliamentary report on the "most favored nation" clauses in foreign treaties; Colonial Trade and Statistics of Shipping with the United States Resiprocity clauses; Federation by Representation; and extracts from the speech of the Canadian Premier, Rt. Hon. Sir Wilfrid Laurier, G.M.C., at Quebec on his return from the Jubilee celebration in England, August, 1897.

It will be gathered from the foregoing that Mr. Van Sommer has collected all the important bearing on the subject up to date. Indeed his work leaves nothing to learn on the subject, and its condensation of matters seen and thought by many publications and now gathered together in compact form, must render it invaluable to all who desire to understand thoroughly the great project of which it treats.

The book, which was printed in the Intelligencer Job Department, is a readable piece of work. It is enclosed in a red cloth cover, and was bound in the Intelligencer bindery, of the work done in which it is a fair specimen.

Stars and Stripes Displayed to an Unprecedented Extent.

The Fourth of July Reorganized Throughout the United Kingdom—Celebrated by Public Holiday Demonstrations at Niagara Falls, Ontario—The Royal Scots Made a Hit at Portland, Me.

The Day at Burlington, Vt.

London, July 4.—The fraternal sentiment evidenced here during the last few months finds today throughout the United Kingdom to an unprecedented display of the Stars and Stripes in honor of the Fourth of July, and in hearty expressions of good-will everywhere.

The afternoon papers are unanimous in applauding the splendid courage of the Americans before Santiago de Cuba, and in congratulating the United States upon the signal success of its arms both in the east and west.

At the same time, the papers who have been drawing depressing conclusions from the earlier telegraphic reckoning with their "Sampson" who has not had a thorough business of the destruction of the Spanish fleet. The strong presumption is that the Americans hold Santiago at their mercy. It is a great Fourth of July.

At Westminster Gazette remarks: "Under the depressing circumstances suggested by the earlier despatches from Santiago de Cuba, our demonstration of friendliness would naturally have augmented rather than diminished, but to day's message, indicating the splendid triumph of Admiral Sampson, has given a warmer tinge to the expression of our friendly sentiments towards the people of the United States."

Dangers of Delay.

If we were allowed to look in the future and see the full consequences that follow a neglected cold, we would not wonder, would we? We would see a man who would not only be weak, but who would be a danger to himself and to others. We would see a man who would be a danger to himself and to others. We would see a man who would be a danger to himself and to others.

BRITISH CRITICS' VIEWS.

Shafter's Advance Considered Imprudent-The Campaign Not Well Planned.

New York, July 6.-J. N. Ford cables to the Tribune, one of the highest authorities of the British army, considers that General Shafter's advance on Santiago was imprudent when his force was numerically inferior to the requirements of the capture of the town by storm. He declares that Shafter on landing ought to have taken up a strong defensive position, fortified it, and waited for reinforcements and siege guns before attempting to carry by storm the Spanish position. He believes that Shafter was in a critical position after Friday's battle, and was only delivered by Cervera's flight in pushing out of the harbor and allowing Shafter to win a victory on the coast.

This high officer considers that the American campaign was not well planned, and that the serious loss of life was unnecessary. Other officers, while criticizing the American army with splendid dash, valor, and fortitude, are disposed to criticize what they consider grave indiscretions in the War Department at Washington in publishing Shafter's report, and in pronouncing a conflict in which the American troops gained and held advanced positions a "drawn battle."

The London Times' correspondent telegraphs under date of the 4th:

The situation here is now critical—dramatic—and it would be false to make it out otherwise.

The troops should never have been sent here without the entire force of artillery at Tampa, and until it arrives they can neither advance nor retreat. They can only lie on their faces or be shot at if they rise. They have been in the most cruel heat and wet with frequent showers for three days. They are unable to move about. They are under an increasing fire. Even the strongest and the bravest cannot stand such a strain any longer. Lack of sleep, of exercise, of food and of tobacco, and the incessant fire of bullets and shrapnel will destroy any constitution.

I went along the trenches this morning and saw men lying in the high grass, which was wet as a sponge. The dew had not been out of the clothes they wore since June 20. They have not even had time to take them off for a bath.

Some of them had been without food for 48 hours. When food did come it was hard tack and coffee. Those who smoke—there are in the majority—were suffering agonies from the lack of tobacco. Their nerves were so unstrung in consequence that as a rule they were smoking grass, tea leaves, and hay.

Overhead the fire was incessant. Ten men at a time manned the rifle pits, and were relieved every hour. The rest of the company or troops lay lower down the crest trying to sleep. Shrapnel bursts over them, killing and wounding several. They were under unrelenting fire from sharpshooters. I do not see how men made of iron can stand such a state of affairs much longer. It is not a question of weeks, but of hours. The situation is now critical, it is written with the most serious and earnest intention. We are in the face of a possible disaster. Nothing has been done by these expeditionary forces to prove the heroic courage of American soldiers.

Truthfully, the expedition was prepared in ignorance and conducted in a series of blunders. Its commanding general has not yet even been within two miles of the scene of operations.

That officer rode to a hill two miles from San Juan the day before the battle. He was seen by the Spaniards, and he was lying on his back the greater part of the time over since. General Wheeler, who refused to remain in bed with his fever, is here beside me asleep on a porch with bullets passing over him.

There are General Sumner, Kent, Lawton, and Chaffee and Colonel Wood—never before have so many commanding officers been so constantly on the firing line, yet the man who is supposed to direct the entire expedition is in a tent at the rear.

If he is ill he should be relieved; if not, the presence of so many officers, and the authority is necessary at the front. I am quoting what brigade commanders demand.

The commanding general's orders are disobeyed without a murmur of objection. I have heard them countermanded in my presence by colonels.

Followed Husband's Advice.

"I was troubled a long time with sick headaches. At last my husband bought me two bottles of Hood's Serravallo's Tonic, and I have taken it. I began taking it and it made me feel like a new woman." Mrs. Mary McFarlane, Des Moines, Iowa.

FOR ST. MICHAEL'S.

The Garden Party Last night was a Decided Success.

The clerk of the weather, in answer to the requests of the ladies of St. Michael's, provided an ideal evening for their garden party. A large number displayed their interest in the good cause, and also their confidence in the ability of the ladies to provide an excellent entertainment for their attending. The natural beauty of the convent grounds was enhanced by the wealth of tastefully arranged and brilliant lights and bunting. Many beautiful little booths were scattered around through the grounds, where everything in the way of refreshments could be obtained, and they all appeared to do an encouraging business. An orchestra provided good music on the grounds throughout the evening.

About nine o'clock the majority of those present adjourned to the Convent Hall, where a fine musical program was given. Those who took part are artists of proven ability, and the programme was undoubtedly one of the finest of the kind ever given in this city. There were vocal solos by Miss Maggie Milne, Miss Switzer, Mr. J. Nevin Doyle and Mrs. Jas. Grant, vocal solos by Mrs. Jas. Grant, Mrs. J. Nevin Doyle, piano solos by Miss Agnes St. Charles; violin solo by Miss Blanche Lester; concert solo by Mrs. W. Graham. Mrs. West was the accompanist. Graham, who is leader of the Brainerd Band, provided himself to be a cornet of accompaniment. The programme was appreciated before Belleville audiences so often that further compliments would be superfluous.

HONORED THE DEAD.

Mitaph Lodge I.O.O.F. Decorate the Graves of Deceased Brethren.

Yesterday the brethren of Mitaph Lodge I.O.O.F. observed the beautiful custom of decorating the graves of deceased members of the order. The members were conveyed to the cemetery by the Annie Lake, together with a large number of citizens, who desired to visit the place, where rest the remains of their loved ones.

Rev. Newton Hill conducted the service of the day, and delivered an appropriate address dwelling upon the uncertainty of life and calling upon all to so live as to be ready for the call when it comes. The beautiful ceremony of decoration was then proceeded with according to the ritual of the order. The graves of the following members were decorated:

W. A. Foster, born 1871, joined Lodge Feb. 12, 1872, died Sept. 23, 1891.

W. S. Miles, born 18th April, 1831, charter member of Mitaph Lodge, 6th Feb. 1874, died Aug. 10, 1897.

Jas. H. Hamill, born 28th June, 1819, joined Lodge 28th Dec. 1870, died June 17, 1897.

R. F. Day, born 1843, charter member of Mitaph Lodge 6th Feb. 1874, died 17th Feb. 1897.

Rev. Dr. W. C. Clarke, born 1843, joined Lodge 27th March, 1882, died Oct. 13, 1897.

W. H. Phillips, born 1844, joined Lodge 23rd April, 1874, died 1st Jan. 1898.

John Bennett, born 1843, joined Lodge July 30, 1883, died Sept. 30, 1897.

Ed. Corry, born 1887, joined Lodge Aug. 29, 1881, died April 4, 1898.

Robert Gallery, born 1857, joined Lodge Sept. 22, 1880, died July 3, 1898.

Chas. H. Hayes, born 1855, joined Lodge March 18, 1880, died Dec. 29, 1893, buried at 12 o'clock.

Jas. W. Dunnet, born Jan. 14, 1840, joined Lodge Dec. 18, 1883, died July 3, 1898.

Wesley Finkle, buried at White Church. The grave of Bro. Rohlin, who was a member of Scotch Lodge, was also decorated.

Many of the citizens also took advantage of the opportunity to decorate the graves of departed friends.

Which Style of Coat.

The style of coat you should wear this year, depends entirely on the style you want. A single breasted, a double breasted or shirt are all in style. Certain stores may tell you this and that are not worn; you will find what you want at the Oak Hall.

John Street Sunday School Takes its Annual Outing.

Yesterday morning and afternoon the steamer Morritt bore a large number of young and old folks from the city to that Mecca of Sunday School excursions, Twelve O'Clock Point. The occasion was the annual picnic of the John St. Presbyterian Sunday School.

The old point looked its loveliest and the old folks particularly found the cool breeze most refreshing, after sultry days spent in shop and kitchen. Games of all kinds amused the scholars, and the amount of provisions consumed by the tired youngsters was incalculable.

An interesting feature of the sports was a most exciting canoe race, between teams captained by Rev. T. J. Thompson and Mr. D. V. Sinclair. The latter team won by a score of 12 to 2. Mr. Harry Morrison captained the crew. The opposing battery consisted of Measrs. C. McKeown and J. Cook. The batting at times was tremendous, but the hottest hit of all was the one Mr. Geo. E. Fox received in the back of his neck.

The excursionists all returned to the city about 7:30 o'clock feeling very tired but happy.

Rupert of Hentzau.

Under this title Mr. Anthony Hope has published a sequel to his famous "The Prisoner of Zenda." It is equally brilliant with the original, and it might be said that it contains a sensation in every line. It is to be regretted, however, that the denouement was not made a happy one, as a nice bit of every ten readers of Mr. Hope's fascinating pages would have desired. In his opinion, the sequel is a masterpiece. The book Charles Dunsen has given a further explanation of his great abilities as a draughtsman, and of that literary instinct which enables him to realize imaginary characters. They add a further charm to a book which may be described as one of the world's best of the year.

BOMB IN SPAIN'S PALACE.

Attempt on the Life of the King of Spain.

The Last of the Great War. The History of the Spanish Revolution. The History of the Spanish Revolution. The History of the Spanish Revolution.

Washington, July 7.—Information has been received in Washington to the effect that an attempt was recently made to blow up the apartments of the Queen Regent in Madrid with a dynamite bomb. Several men were arrested for alleged complicity in the plot and one of them, Antonio Vazquez, was condemned in the fortress of Montjuich at Barcelona and sentenced to death.

Others are still under arrest. Absolutely no official information has been given out concerning the plot, and the authorities of Don Carlos, who wished to expedite his movement to the throne by the destruction of the royal family, Alfonso, of his mother, the Queen Regent, have been dropped of an anarchy plot, but the Carlist theory is given more credence. That their plan was frustrated was due more to fortunate circumstances than to any plot on their part to do anything to insure its success. Had the bomb exploded, the king and queen would have been the greater portion of the palace, killing a number of people, and, in the event of the explosion, the king and queen might even have had more serious results.

Will Santiago Surrender.

Washington, July 7.—From information which reached the State Department late last evening through foreign dispatches, it was gathered that there is every indication that Santiago will surrender without being bombarded, if it is agreed at this time to grant complete negotiations.

The Navy and War Departments have also been made aware of the propositions on this matter and have been submitted to the Government. The officials, however, refused, for the time being, to give out anything for publication.

Attack on Santiago.

Madrid, July 7.—The Government has received a cable dispatch from Kingston, by way of Halifax, stating that the land attack on Santiago was resumed Tuesday.

The garrison, assisted by the reinforcements brought by Col. Escario, was resisting valiantly. In an interview yesterday General Weyler said that the situation was serious, but not desperate, if an energetic policy, in harmony with the national and military aspirations, was adopted. The Government has decided to make another attempt to land provisions and war stores in Cuba and Porto Rico, employing fast steamers for the purpose.

A Combined Attack Probable.

Washington, July 7.—The Administration is fully determined that there shall be no delay in the programme to bombard Spanish and Canary islands, but just now all energies will be devoted to placing Canada's fleet where it will do no harm.

Commonwealth is now ready to go on his long chase after Camara, and will follow him around the world if necessary.

After the navy's part in the Porto Rico programme is decided another flying squadron will be rushed to the coast of Spain to begin the attack there.

Washington, July 7.—Robson's exchange was effected yesterday morning.

Spanish Dash for Liberty.

Headquarters of General Shafter, Tuesday, July 6, per Associated Press dispatch from Santiago, via Port Antonio and Kingston, July 6.—(6 p.m.)—About 50 of the 100 Spanish prisoners on the United States military cutter Farragut attempted to escape last night. In some way a number of them secured guns and made a wild dash for liberty from the steamer, where they were confined. Their rush was met by the deadly bullets of the guards, and six were killed and six were wounded. The fighting ended the mutiny. No American was hurt.

Destruction of the Reina Mercedes.

The destruction of the Spanish cruiser Reina Mercedes last night, Monday, accounts for the last ship of Admiral Cervera's squadron.

She was in plain view, her masts resting on the top of the beach under El Morro. Part of the hull is above water, and her masts and two masts are entirely out of water.

Hon. Edward Blake's Visit.

London, July 7.—Hon. Edward Blake's speech in the House of Commons on Irish Home Rule is the subject of general talk and interest. It was in fact Mr. Blake's greatest Parliamentary hit.

The Westminster Gazette yesterday said that the following tribute to Mr. Blake followed the Chancellor of the Exchequer and analyzed his arguments with great skill, proving himself master of Irish financial statistics and an adroit and dexterous opponent in controversy.

The House of Commons in the lobby, some of the most generous tributes to Mr. Blake's powers were offered by his political opponents.

Election Trial Dates.

Toronto, July 7.—Today at 11 o'clock the judges who are to try the election protests will hold a session to fix the dates. Clerk Grant thinks that the following protest are ripe for trial: London, North Essex, Dufferin, Central Simcoe, South Simcoe, North York, York, and the City of Toronto.

BABY'S OWN SOAP is made particularly for little folks. It is the purest soap in the world. Really and truly the purest.

It looks good; smells good; IS good; and does good to the pink and tender skin of infants.

Thousands of men and women use BABY'S OWN SOAP, because they like it—but for Babies it is indispensable.

Unrefined makers are offering an inferior soap, the name in color and shape as BABY'S OWN.

PLEURISY CURED IN ONE NIGHT. Union Mines, April 6th, 1897. Messrs. Griffiths & MacPherson Co.,

Gentlemen,—My son, Samuel Bennie, got his leg crushed and bruised in the mines seven weeks ago. The swelling never fully left it until we tried your Menthon Liniment. On the first application the swelling disappeared and the muscles began to loosen up, so much so that the same evening he was able to use his foot for the first time. I consider it the best liniment known.

WAR BULLETINS.

Minor Events of the Contest Told in Paragraphs.

Spain has used informal overtures for peace through Sir Henry Drummond Wolff, the British Ambassador at Madrid. The Spanish Government has promised fresh war measures. The arrest of Gen. Weyler is probable. Admiral Cervera's tactics have been severely criticized in Madrid. The capture of the loss of Admiral Cervera's fleet seriously affects the Queen Regent.
A Spanish steamer, supposed to be the Alphonso XII., has been driven ashore by American gunboats off Cuba.
The Spaniards at Manila are manifesting very little feeling against the American troops on the island of Luzon interfered with the operations of the rebels and American troops at Manila.
Gen. Miles sailed from Charleston for Santiago on a number of troops to reinforce Shafter's command.

WILL ARBITRATE.

The City Will Leave the Waterworks Matter to Arbitration.

The Executive Committee met last night and passed a few accounts.
The Waterworks matter was again considered. The Company will be out for \$200,000, which is \$50,000 more than the value placed upon the works by Mr. Chipman. As the statute gives the City the right to leave the matter to arbitration, it is decided to recommend that the City do so.

Summer Overcoats.

It is very unwise to make a trip by water and land without taking a light overcoat. It may be warm when you start, but the weather changes and you might not be caught. The Oak Hall has a complete stock of light overcoats at \$5 to \$10.

A BOOM FOR OUR NICKEL

New Invention in Smelting Which is of Great Importance in Canada.

The Sulphur to be Saved-Copper Also Separated, the Remaining Product Forms Best Nickel Steel.
There is every probability that the nickel smelting industry of Ontario will before very long be developing into the proportion which has long been promised, but which for various reasons has been delayed.
Mr. R. A. Lyon, of Sault Ste. Marie, and Registrar for that district, formerly residing in Algoma, is the Local Legislature, staying at the Walker House for a few days. From him I learned that preparations are being made for a large business at the new smelter, which has just been completed at Sault Ste. Marie.
The company which own this smelter is in possession of a new process for treating nickel ore. By the new process the cost has been reduced by more than half its former cost.
By this treatment the sulphur and copper are separated and lost entirely. Here to fore the sulphur has been destroyed, for the old process demanded such. Neither could the copper be saved. If the new system saves this sulphur and copper, a great advance will be made.
But by the new process the nickel and iron are left in such a form that the nickel steel is formed which is superior to anything yet put on the market.
The company has made its tests, and is in a position to make contracts. It is prepared to get out 100 tons a day.
Over \$2,000,000 has already been expended on the Canadian side in developing the water power of the St. Mary, of which the company has the monopoly.
Mr. Lyon is very enthusiastic over the new invention, and the chances for securing for Canada such a boom.—Toronto Star.

Over \$2,000,000 has already been expended on the Canadian side in developing the water power of the St. Mary, of which the company has the monopoly.

Mr. Lyon is very enthusiastic over the new invention, and the chances for securing for Canada such a boom.—Toronto Star.

Mr. R. A. Lyon, of Sault Ste. Marie, and Registrar for that district, formerly residing in Algoma, is the Local Legislature, staying at the Walker House for a few days. From him I learned that preparations are being made for a large business at the new smelter, which has just been completed at Sault Ste. Marie.

The company which own this smelter is in possession of a new process for treating nickel ore. By the new process the cost has been reduced by more than half its former cost.

WIT AND HUMOR BY HODG.
I really take it very kind.
What heads for a painter's easel?
I have not seen you for an age—
(The waiter has come to dinner)
Your daughter, too, what loves of girls—
What heads for a painter's easel?
Come here, and kiss the infant, dear—
(And give it pips the measles)
Your charming boys, I see are home
From Leonard Mr. Russell's;
'Twas very kind to bring them both—
(What boots for my new Brussels)
What, little Clara left at home?
Well, now, I call that shabby;
I should have loved to kiss her so—
(A flabby, flabby, baby)
And Mr. S. I hope he's well,
From Leonard Mr. Russell's;
He never now drops in to sup—
(The better for our brandy)
Come, take a seat—I long to hear
About Madam's painter's easel;
You've come, of course, to spend the day!
(Thank heaven, I hear the cake is)
What! must you go? Next time I hope
You'll give me the longer measure;
(Now, David, mind I'm not in haste—
In future to the Skinkers'!)
(With most uncommon pleasure!)

Good-bye! good-bye! I remember all.
Next time you'll take your dinner!
(Now, David, mind I'm not in haste—
In future to the Skinkers'!)
(With most uncommon pleasure!)

G. T. R.'s New Rules.
THIS SHOULD BE ENFORCED.
Every employee of a railroad is more or less at times compelled to ask for leave of absence on account of ill health, which in 99 cases out of a hundred is caused by kidney trouble, which in turn is caused by irregular hours, cold lunches, and constant jolting of the train. Loss of time and money would be saved if they used the RYKMAN'S KIDNEY CURE, and the following SWEET testimonial will bear out the statement:
G. T. R. Brakeman, William Walker, Hamilton, Ont., declares under oath that he had "Kidney Kidney" so severely that he had to leave his work. Had medical treatment, was very ill, and had had iron applied, without success.
He is completely cured, and by "Kidney Cure." He works every day now on the G. T. R., and we will send you a full statement of his case, and of many others, if you will address:
The S. RYKMAN MEDICINE CO., LIMITED, HAMILTON, ONT.
The medicine sells for \$1.00 per bottle, or 6 for \$5.00, from your druggist, or send to us direct.

Berries Were Down.
While a man named Pitt, residing in Thurlow, was driving in with his wife to work this morning, his horse became unmanageable in front of Lester's mill and started to run. Mr. Pitt was thrown out but fortunately escaped without serious injury. The animal was under control, without any further damage being done.

Corn! Corn!
Tender, painful corns, bleeding corns painfully removed in twenty-four hours. Mr. A. Paine's Corn Extract acts magically. Try it and be convinced.

Going in For Economy.
Joseph Advertiser.
The editor of this bright and breezy journal is about to purchase a new, and heretofore invited all and sundry to submit proposals for the supply of this article. Almost all things will do, providing it does not take over twenty-five cents of the coin of the realm of Great Britain and Ireland to liquidate the debt. This style of doing business has been forced upon us by the example of others, and we are going to work the system for all it is worth. And right now we want to give notice that next week we intend to call for tenders for a bill and tucker for the baby.

Largely Attended.
The funeral of Mrs. C. A. Gardner, late of Foxburgh, was yesterday afternoon and was one of the largest ever seen in that vicinity. The services were conducted by the Rev. Mr. Duke, at the residence of the deceased, where the remains were conveyed to the cemetery on the 6th of Thurlow. The bearers were Messrs. Mr. T. W. Wilson, William Lloyd, Ambrose Falkner, Byron Roush, G. A. Gilmour, and Geo. Dale. The funeral arrangements were in charge of Tickle & Sons, Belleville.

Insurance blood is no enemy to health, and may lead to serious disease. Hood's Sarsaparilla cures this enemy and averts danger.

Battalion Notes.
There was a large turnout at the parade last night and the men showed great proficiency at the drill, which consisted of the march past and forming in square and column, from which they drilled. The company which was listened to by a large number.

Company inspection will take place next Wednesday and Thursday evenings and on all other occasions.

BELLEVILLE ONTARIO, TUESDAY, JULY 12, 1898.

THE HALF HOLIDAY.

Please remember that Wednesday afternoon is recognized as a half holiday by all the dry goods stores in the city. Last week we had a number of persons disappointed at not being able to get in our store on that afternoon. Store closes at 12 o'clock noon, so please do your Wednesday trading before that time.

Sale of Fancy Parasols.

In connection with our sale now proceeding, we have put out all our Fancy Parasols at greatly reduced prices to clear them out quickly. You will find some splendid bargains amongst these. All our Children's Parasols included.

Plaid Stockings

We have just received direct from Germany a lot of Ladies' Fancy Plaid Stockings in two qualities, assorted checks: These are very scarce just now.

New Blouses

A new lot of Black and White Blouses just received, regular \$1 quality, which we sell at 75c each. See a few styles in centre window.

New Chiffons

A large shipment of Mouseline de Soir (bright finish chiffon) just received in Black, White and Cream. All colors also in stock.

White Quilts

Have you seen the large White Bed Quilts we are selling at 75c each? We bought them much below regular price. Only a few more left.

Remnants

On our Remnant Tables you will find bargains in almost every kind of goods, Towellings, Table Linens, Dress Goods, Prints, Embroideries, Laces, Muslins, Sheetings, Pillow Cottons, etc., etc.

of a strong and robust body. Dr. Ward's Pills will bring back health, strength and energy to even the weakest and weariest of suffering humankind.

A BAD INVESTMENT MADE GOOD.

I have half a gross of empty bottles upon my shelves. Everything my neighbors and I have tried to cure our troubles with, straight away to the drug store and purchased Dr. Ward's Blood and Nerve Pills, dyspepsia and liver troubles and we gotting better. I have been buying one medicine and the other and relying on the doctor, but I have not seen all hope of ever getting better, when my wife and I bought a box of Dr. Ward's Blood and Nerve Pills, which he has begun using them at once, when, to my great surprise, I have been cured of my troubles and continued them for about two weeks and I feel better than I have for years. I feel just as if I had been cured of dyspepsia or liver troubles and I feel that I have made a very good investment.

Signed, ANNIE B. GAUNTLEY,
King Street, Berlin, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50 cents per box, a box for \$1.00, at all druggists and health stores.

FURTHER ARRESTS EXPECTED

Detectives at Work on the Napanee Bank Robbery Case.

Caroline Pare Connected With a Dangerous Gang of Thieves.

Montreal, July 12. The police are still working on the Napanee bank robbery case, but refuse to say whether there have been any new developments. Chief Detective Carpenter left suddenly last night for the States, where the Pinkerton detectives are engaged, and it is expected that his trip will result in further arrests. There is no doubt that Caroline Pare, the woman now under arrest, is connected with a most dangerous gang of thieves. Her husband, Edward Pare, who is now 55 years old, has been a criminal since his youth, and has been connected with some daring jobs. His companions in crime—Warren, Richardson, Allan, Howard and Joe Laroche—are also experts at the business. Howard is an American, and is connected with a bad gang in the United States. If, as the detectives suppose, the robbery was the work of this gang, they will be doing a good piece of work.

Hot Weather is Again.

The warm weather is again. We have had a few days of delightfully cool weather and we have all thoroughly enjoyed it. Now get ready for hot weather and you will not mind it at all. The first thing you do is to go to the Oak Hall and get fitted with a light weight coat, then notice that your trouble is about over.

TARTE'S TRIUMPH.

An Appointment to the Montreal Bench Removes His Chief Opponent.

Following is a special to the Toronto Star—A Grit paper—from Montreal under date of July 12th:

"The last kick of the anti-Tarte element in French-Canadian circles has been made. Mr. Tarte's most powerful opponent among the Liberals of the Montreal district, is to be appointed to the Police Magistracy of Montreal. Judge Dugas, the present holder of the office, will get a lucrative appointment in the Northwest. It is understood that Mr. Beauchamp, who is quite willing to accept the Police Magistracy, and that, with his disappearance from the political field, will die the last opposition to Mr. Tarte's ascendancy in the Liberal party."

The Glorious Twelfth.

IN HUNGERFORD.

A very largely attended and successful demonstration was held in Brown's Grove, Hungerford, yesterday. Over thirty ladders were in line, and the annual demonstration of the district of North Hastings.

William Morton was Marshal. Stirring addresses were delivered by Rev. J. Johnson, Martin and Nichol, Messrs. Robt. Gordon and William White, of Tweed, W. Martin, of St. John's, and W. P. Hudson, of Belleville. Dinner was served by the ladies of the Presbyterian congregations of Tweed and Belleville. The net proceeds of the day were \$10,000, which will be devoted to the building fund of the new church in Fuller.

OVER SIXTEEN THOUSAND

Will be Levied for School Purposes This Year—The Teachers Engaged—Some Increases in Salaries.

The Finance Committee of the Board of Education brought down the estimates for the year 1898-99 at last night's meeting. The total expenditure on the High School for the year is estimated at \$9,390.55 and for the Public Schools at \$14,138, making a total of \$23,528.55. The Government grant and other revenues to the High School will amount to \$1,700.80 and to the Public Schools to \$1,054.24, leaving \$21,827.75 to be provided for by the city.

Mr. Walker, Chairman of the Finance Committee, pointed out that they were spending money on the High School than ever before. He explained this, however, by the fact that some accounts had been left over from last year, which the year's Board had to pay. The income and attendance at the High School this year would be very much less than last, owing to the new regulations of the County Council in regard to the payment of the fees of the non-resident pupils.

Mr. J. F. Wells protested against the present method of bringing down the estimates asking for a lump sum for different departments. He thought an itemized statement should be furnished.

Mr. Johnson pointed out that each of the spending Committees gave an itemized statement when they brought in their reports.

It was decided to request the Secretary to furnish an itemized statement to each member of the Board, hereafter.

By-laws requesting the Belleville City Council to levy the required amount and requiring the Township of Thurlow to levy \$257, were carried. Several accounts were also paid.

The School Management Committee reported as to officers, the engagement of teachers and Miss Helen Varney was appointed to the vacancy in Octavia St. school. The following increases were recommended: H. A. Clarke from \$80 to \$85, A. E. Morrow from \$80 to \$85, Miss B. Johnson from \$75 to \$80, J. F. Johnson from \$75 to \$80, W. McKeown, superintendent, from \$125 to \$175. Mr. W. R. Clarke having applied for an increase of \$100, the committee left the position open for the present, thinking that owing to the decreased number of pupils, they might be able to dispense with the services of a teacher this year.

In regard to the appointment of Mr. Smith as Superintendent of Buildings at a salary of \$1,000, Mr. Bigger stated that he knew carpenters who would take the position at the same salary and do all the incidental repairs themselves. He had no prejudice against Smith, but he wanted the work done as cheaply as possible. He moved that the appointment be left open and that tenders be asked for.

Mr. Johnson expressed his thorough satisfaction with Mr. Smith's work, but it was the people's money they were spending and they should be careful.

Messrs. Walker, Bennett, Pringle and Dr. Tracy all spoke against the motion. They thought that Mr. Smith was doing a great amount of work for the salary he got, and that he was certainly entitled to the position.

The motion was lost, only the mover and seconder voting for it.

The Committee on Printing and Supplies recommended that the People's Coal Co. be given the contract for supplying coal for the schools. They are to supply Lough Valley hard coal, and soft coal, their being the lowest tender. The report was adopted.

The Committee on Sites, Buildings and Repairs, recommended that Lewis Grille be given the contract for putting railings in Queen Victoria and Grier St. schools, his being the lowest tender; that Chas. Herring be awarded the contract for the contract for putting railings in Queen Victoria and Grier St. schools, his being the lowest tender; that Chas. Herring be awarded the contract for the contract for putting railings in Queen Victoria and Grier St. schools, his being the lowest tender.

Mr. Bennett brought up the matter of the seat vacated by Mr. Robert Rogers. He thought that it should be filled, in accordance with the law. The Chairman promised to have the matter in shape by the next meeting of the Council.

Miss Imogene Pelen wrote applying for a position on the High School staff. The application was referred to the Committee on School Management with power to act.

Communications from Ottawa Collegiate Institute Board asking the Board to cooperate in an effort to secure amendments to the High School Act, and from P. W. Service applying for the position of caretaker of Queen Victoria School, were referred to the respective Committees.

Miss May McCaughy wrote for a salary during the time she was ill. On motion of Messrs. Walker and Johnson she was allowed the sum of \$62.82 salary for two and a half months.

On motion of Messrs. Johnson and J. F. Wells, that part of the report of the High School Inspector referring to the re-estimation of the High School was referred to the Committee on Sites, Buildings and Repairs.

Mr. Walker gave notice of a motion requesting the Committee on Sites, Buildings and Repairs to remove the brick wall linking Miss McCaughy's room in Queen Victoria School and from P. W. Service.

Those present at the meeting were: Dr. R. Tracy, Chairman; Rev. Canon Burke, Messrs. Diamond, Bigger, J. F. Wells, Walker, Johnson, Hudson, Davis, B. Wells, Thos. Wells, Pringle, Bennett, Martin and Mills.

G. T. R.'s New Rules. THIS ONE SHOULD BE ENFORCED. Every employee of a railroad is more or less at times compelled to ask for leave of absence on account of ill health, which in 90 cases out of a hundred is caused by kidney trouble, which in turn is caused by irregular hours, cold lunches, and constant riding on the train. Loss of money would be saved if they used Hockman's KIDNEY CURE, and the latest and best medical testimony will bear out the statement.

G. T. R. Drakeman, William Walker, Hamilton, Ont., declares under oath that he had "Kidney Kidney" so severely that he had to leave his work. Had medical treatment, was fly blistered, and had his back rubbed, and of many others, he is completely cured, and by "Kootenay Cure." He works every day and is as healthy as a horse, and will send you a full statement of his case, and of many others, if you will address.

The Elevator.

SIR:—I do not personally know Mr. F. F. Cole, but as one who, on his own account, as well as for others, has had occasion to dispose of grain in Belleville and also to learn the opinion of farmers (through the West Hastings Agricultural Society) I will bear testimony that Mr. Cole has been of great advantage to Belleville in reviving the grain trade of the city and by liberal prices and generous competition against the standard of the Belleville grain market. The "good days for merchants," which were chronicled in your columns last fall on several occasions, were the good days for farmers, who were here to do business, and I believe that it would be a short-sighted policy to allow a small number of dollars to interfere with the re-letting of the elevator to Mr. Cole, whose large business connections elsewhere would tend to keep Belleville in the chain of commerce. The centralizing of their trade in Belleville, through the good prices and facilities afforded, is worth more than a few dollars of rental, apart altogether from the improvements which I understand Mr. Cole proposes to make to the city property.

Yours truly, W. N. POSTON. Belleville, July 12th, 1898.

BANK BILLS TRACED.

Detectives Unravel the Mystery of the Dominion Bank Robbery at Napanee.

The Methods of Circulation-Bills Sent From Manchester, N.H., to St. Hyacinthe Supplied the First Good Clue-Paris Now in Montreal.

(Montreal Star, July 16th.)

46,762, 46,340.

This is the combination that was used to unlock the barriers that separated Justice and the perpetrators of the Napanee bank robbery.

In other words, these are the numbers of the unaccounted ten dollar bills stolen on August 28, 1897, from the Dominion Bank at Napanee, which gave the officers of the law the first tangible clue, which we are now able to follow.

And how skillfully that clue was followed was shown in the arrests made at Montreal, here, on Wednesday night, July 15th. Her brother, Edward Pare, is also a captive. Both these people are in Montreal, the woman having been brought here from St. Thomas de Montargy, where she was arrested; the man reaching here from Manchester, N.H., this morning. Brother and sister are now in the cells in this city. The Star told yesterday in its special despatch from Boston of the arrest of William Henry Holden, the detective, as one of the principals, and the direct associate of Edward Pare in the robbery at Napanee. Holden will be taken to Napanee for trial, and the Pare will be taken to Montreal to keep him company.

The fourth arrest was made in Belleville, which place is nearer the scene of the crime. Here, on Wednesday night, Superintendent Carpentier, of the Montreal detective force, and Assistant Superintendent George S. Dougherty, of the Pinkerton agency, took in custody Robert Mackie, a young man well known in the place. He is charged with being connected with the affair, and the officers of the law have, they claim, evidence strong enough to warrant his detention under arrest. That makes four arrests in all. Are there others? That is the question of the hour in this case.

Unusually successful was the work of John Baptiste Falardeau, who lives near St. Hyacinthe, has relatives who work in Manchester, N.H. They send John Baptiste money, and these relatives send him good Canadian money, and he sends them some. It was all good except the signature. That was forged. The money was part of the lot obtained by robbers from the Dominion Bank at Napanee. August 28. It was part of the \$10,000 in unissued new Dominion Bank notes, included in the \$34,000 odd lifted from the bank vault. These new notes were numbered from 46,001 to 47,000. The notes which John Baptiste received were numbered 46,762 and 46,340. They were put in circulation about June 27, and reached the St. Hyacinthe branch of the Eastern Townships Bank on deposit. That bank had a large number of counterfeit bills above. They traced the bill back. The merchant making the deposit had received them from John Baptiste. Baptiste got the money from his brother, Edward Pare, who was in the habit of sending him money from Manchester, N.H. The logical conclusion was that some one in Manchester was systematically disposing of the bills through the French-Canadian agents, who were in the habit of sending money to Canada. That was proved to be a correct theory.

Meantime the Eastern Townships Bank notified the officers of the Dominion Bank in Montreal. It was only one of many similar notifications received. But it proved to be the one notification which led to definite results. It was the clue that led to the detection of the criminals. Edward Pare's arrest followed, and through his detection the arrest of his sister, and Holden has caused.

THE FIRST OF THE NEW DOMINION BANK bills with the forged signatures to be put in circulation first came to light about June 13 at Smith's Falls. Five days later Orlan's agent saw a dose of these bills in a week Montreal merchants were on the qui vive for the bills were being circulated in that city. Where did this Ottawa and Smith's Falls batch come from? At the time they were in circulation the detectives did not know. For nearly a fortnight they looked for them in vain. It was not until the 15th of July that the bills were traced to the Ottawa Valley batch came from Pare and his sister. Quebec found that the bills were being circulated there by July 1. These were the bills traced to Caroline Pare.

When the notification came to the Dominion Bank in Montreal from the Eastern Townships Bank of St. Hyacinthe, Detective George Wilkes, of the Pinkerton Detective Agency, who has been connected with the case all through from the very beginning, was hunting for clues in connection with the Smith's Falls and Ottawa Valley bills. He was right in Montreal. It was hard work to find out anything regarding the party or parties who were passing the counterfeit bills in Eastern Ontario or in this city. The local banks pretty nearly all had the bills. Notifications were sent to the Dominion Bank to the Hochelaga and Banquet National, the Merchants Bank, the Halifax, the Montreal Bank and others. But nothing came of it.

But the St. Hyacinthe notification opened up a rich lead. Immediately it was learned that the money came from Manchester, N.H. The Pinkerton agent at Boston was notified, and sent men to Manchester, where, it appears, Pare was in the habit of transacting business with some of the French-Canadian agents, giving them Canadian currency for American money, and they returned to him the bills, and he returned them to his friends and relatives in Canada. It took the Pinkerton men five days to get Pare just where they wanted him. He was "abducted" on Thursday night, July 15th, by the Pinkerton agent, David O. Thornhill, the superintendent of the Pinkerton office at Boston, assisted by the Superintendent O'Dowd of Manchester, got their man "just where they wanted him," and he was gathered in the details of finding the money concealed in his trunk were told in yesterday's Star, and the manner of his arrest was in this wise.

SENSATIONAL

Will be the Trial of the Bank Robbers.

So Said one of the Detectives-Investigating Articles Said to Have Been Found in Mackie's Possession.

Locally the bank robbery remains unchanged. No further arrests have been made, although hourly expected.

Wild rumors have been afloat last night and to-day as to the arrest of other local men, but they are rumors, nothing more. The detectives have been very reticent throughout and they only know whether any others are suspected, and what the evidence is against Mackie.

The detectives, Doherty and Wilkes, have been in and out of the city every few hours during the past three days. They have been arriving and departing by almost every train east and west, but nothing can be learned as to their intentions or the result of their industry.

One of them stated, however, in conversation that the trial would be the most sensational criminal trial ever held in Canada.

A Napanee despatch says that at the time of the robbery a fine collection of coins belonging to Mr. Baines, manager of the Napanee branch, were taken and these were found in Mackie's possession. Mr. Baines has identified them. However, we simply give this statement for what it is worth.

WE WERE PROUD OF THEM

The XV. Battalion's Excellent Showing At Inspection.

The inspection of the XV. Battalion, the crack corps of which Belleville is, and its track record to be proud, took place last night on the hospital lot. Lt. Colonel Oter and Major MacGuinnis, in company with the XV. Battalion, were present. A very large number of townspeople, the majority of whom were ladies, witnessed the manoeuvres, and were highly gratified at the splendid appearance of our boys.

The Battalion left the Army shortly after seven and marched to the lot by way of Bridge, Front and Victoria ave. The following was the order and state of parade:

Bicycle Corps-Serge Dempsey and 8 men.

Logistical Band Bandmaster Riggs and 23 men.

Dugle Band-Bugle Major Pringle and 15 men.

A Company-Capt. Pope, Lieut. Conger and 44 men.

B Company-Lieut. Marsh and 32 men.

C Company-Lieut. Hume and 28 men.

D Company-Capt. MacGuinnis, Lieut. Watte, of the 49th, attached, and 37 men.

E Company-Capt. Vernioya and 41 men.

F Company-Capt. Stewart, Lieut. H. D. Hume and 37 men.

G Company-Lieut. McCann and 6 men.

Staff-Lt. Col. Ponton, Major Halliwell, Lieut. and Adj. McRae, Paymaster Major Biggar, Quartermaster Major Donald, Sergeant, Major, Eakins.

Serge-Major Aris, Asst. Sergt.-Major Macdonald, G. M. Sergt. Mille, P. M. Sergt. Foley and O. R. Sergt. Ponton.

The drill on the lot was most satisfactory although the men were somewhat handicapped by the smallness of the lot. The battalion of the skirmish and attack drill was given in excellent style.

On the return to the Army, Lt. Col. Oter addressed the men. He complimented them upon their cleanliness and neatness of appearance. He noticed a great improvement since last year. There were a few defects yet in their drill, which he hoped would be rectified before he came down next year. He complimented them particularly upon the extended drill which has always been a special feature of our Battalion.

Lt. Col. Ponton also addressed the men before they were dismissed, thanking them for their attention to drill and their devotion to the Battalion.

D & A Corsets
They are fashioned on living models, not on statues or theories, and the result is they fit

With Ease and Comfort.

They wear well.

the person who is breathing so loudly may have away all thought of death except the sense of awe quite as easily as the silent sleeper who hardly seems to breathe. We see death smiling, but were it more familiar would it if a corpse would inspire so much awe as the unconscious and sleeping figure—a smiling, irresponsible doll, flesh and blood, but a doll to whom in a few seconds may come active, conscious consciousness which will ride his body and his mental here with a hand of iron and will force his body to do dull and misery and will make that mind now wandering in paths of fantastic glory that will produce a new world, throw all its force into the raving, the saving or the destruction of mankind. The body is only a machine, muscle and bone, a statue. The sleeping body is the house which a quick and eager master has only left for an hour or so.

Let any one who thinks sleep is not a mystery try to observe his limbs and mind at once. I have since continued taking the pills, with continued and marked benefit. I have been able to get my sleep returned. I am gaining in flesh steadily, and my general health is now good. Further, I am sure that the troubles are due to the action of Dr. Ward's Blood and Nerve Pills, and for the others all that they have done for me."

At the request of the defendant a hearing was given by United States Commissioner Victor in the United States District Court in the afternoon, for the purpose of furnishing Holden with some knowledge of the evidence gathered against him. A large number of witnesses testified, including the arresting officers.

FURTHER DETAILS.

Mackie's Defence.—The Trenton Express Robbery.—Treatment of Prisoners.—Other Notes.

NAPANEE, July 20.—The scene of the alleged swatting has been changed from the prison, and it is now said that the officers were made to Mackie before he was taken to jail. Detective Dougherty is not here yet, although he is expected early in the morning by his confederate, Detective Wilkes, who is in Belleville. Mackie says that any confession obtained under the circumstances would be utterly valueless, and that, furthermore, it is not Detective Dougherty's way of securing information. The Pinkerton men accuse the lawyers of trumping stories of the kind for the purpose of influencing public opinion. Mr. Wilson says that Mackie, although depressed by his unaccustomed confinement, is cheerful and confident of the result. He seems to have been in Belleville on the night of the robbery, and the preparation of that portion of the defence relating to an alibi is now in progress there. He expects to prove a strong alibi.

TREATMENT OF PRISONERS.
Mackie receives the same consideration as the other prisoners. His meals are sent him from the house of a friend near by, and he is allowed the same of newspapers and tobacco. Pare's special meals are prepared by the turnkey. The police of Manchester, Ontario, where he, by the way, made his confession to chief Wilkes, stand the bill. The case of the extreme candor in this case is securing for him laudation which in his extended experience of prison life, he never encountered before.

NEW FEATURES OF THE CASE.
Pare may also be identified as one of the men who burgled the express office at Trenton. In this case the combination of the vault was secured, and it is argued in Toronto's behalf that if Pare worked a combination on one vault he could on another, and would therefore have no need of the teller's services. Pare, if he did work on another job in Ontario, evidently secured a fresh lot of tools to execute the Napanee robbery, for his appliances, although now being coated with rust through being buried for so long, are new, and the traces especially is shown to have never been used before. The keys still in possession of Chief Adams. The different pieces will not be cleaned of the rust until after the trial.

THE TRAMPS.
The records of the two tramps who were brought before Magistrate Daley just before the robbery and ordered out of town by him, and who are thought to be Pare and Holden, are being looked into. The names given by the two men at the time were those of Bell and Howard. The police are endeavoring to discover whether these are aliases of the two American suspects.

THE COINS IN A PURSE.
In a purse which was handed by Holden to his wife at the time the arrest was made, were found several rare coins, which, it is argued, had been passed on in part by the manager of the Dominion Bank, and which were kept in the vault. These coins were marked by him. (Unusual bills were also found in the hands of the wife when the witness returned to the house.)

TRACING THE WOMAN.
Movements of Mrs. Saucier in Her Attempts to Elude Capture for Passing Those Bills.

QUEBEC, July 20. A local French paper is responsible for the statement that Fabien Pare, the father of Edward, who was arrested at the bank robbery, had a broken heart in Quebec, because of the shame which his children had brought upon him. Edward was then quite an outcast. His sister, Caroline, after the death of her father, left with her mother for Montreal. The mother has also since died. Blaise Saucier, the alleged daughter of Caroline, pretends to be really the daughter of a great lady. It was her second mother, she says, who gave her the name of Saucier, and who lived in Montreal, near Viger Square. They were frequently visited by Edward Pare, who she calls uncle.

The prisoner, Caroline, arrived at St. Thomas de Montargis on Friday, the 1st of July, and stayed with her child at her cousin's. Blaise Saucier, who had been out of the country for some time, was visited next day by P. P. Bonneau, a cousin of her mother's. On Sunday, the 3rd, she was at St. Pierre, where she was visited by P. P. Bonneau, a cousin of her mother's. On Sunday, the 3rd, she was at St. Pierre, where she was visited by P. P. Bonneau, a cousin of her mother's.

All the relatives visited by her say that they were surprised to see her, as she had been out of their way a long time. Detectives are now tracing home to her certain bills of the Dominion Bank that were circulated in Quebec, and in the circle of the names of a number of parties now arrested are supposed to have been implicated.

STRENGTH OF THE JAIL.
The Province Declines to Pay for the County Council's Neglect.

Dr. Chamberlain, Inspector of Prisons, has declined to set on the appeal of Sheriff Holden, who claims that the jail is not safe, and that the Province should pay for the cost of the jail. The Province declines to pay for the cost of the jail.

Square Dealing.
It is the purpose and aim of the Oak Hill Clothing House to treat every one who enters the establishment so well, and to give them such good value for every dollar they spend, that they come back again and again. We are continually supplying the people we deal with and endeavor to supply them with the latest and best goods at the lowest prices. THE BANK ROBBERY.
About Those Coins—Rumors Are Subsidizing.

Locally, the interest in the bank case continues as great as ever, although the chance of further arrests in this city have died.

Mr. E. G. Porter went to Napanee to-day and with his client. He declares that the defence are ready to go on at any time.

Mrs. Robt. Mackie has been seen in regard to the coins found in the possession of her husband. She stated that her husband had owned them ever since their marriage some 14 years ago. Her little son and daughter were the most unconcerned and happy men in the room.

From what can be learned the evidence against Mackie is very weak.

A Peep Into the Future.

We are all more or less anxious to know what will take place in the future. For the information of all buyers of Dry Goods we wish to make the announcement that we are making very special preparations for an extensive autumn and winter trade.

During the month of July all foreign goods are admitted through the customs at a discount of 25 per cent off the duty. This privilege or arrangement will terminate with all countries except Great Britain on August 1st. In order to take advantage of this special customs discount, our buyer left early for the European markets, so that purchases might arrive here and be passed through the customs in July. Already invoices have arrived for the large bulk of our Silks, Ribbons, Laces, French and German Dress Goods, etc., and will be passed through the customs at the low rate of duty. This will ensure to our customers the closest possible prices on all kinds of foreign made goods.

Mr. Ritchie writes us from Berlin, Germany, that he has secured an unusually choice assortment of Ladies' and Children's Jackets and Mantles. We purpose giving this department much larger space than formerly, as well as going more extensively into the sale of Ladies' and Misses' Furs.

Workmen are busy tearing down walls, putting up new partitions and fixtures, painting, decorating, etc., and when our premises are completed and heated throughout with steam, we will be in a better position than ever before to cater to the requirements of the people of the Bay of Quinte district.

During the months of July and August we are offering special inducements in all departments to make a quick clearance of all summer goods.

GRIT POLITICAL MORALITY.

"The Tories knocked out." So says the Ottawa Free Press in referring to the action of Mr. Hardy in calling the Ontario Legislature together to pass a law legisla-
tion that are considered illegal votes, thereby legislating himself and colleagues into power for the next four years. It is not often we have so frank an acknowl-
edgment from a Grit.

The same spirit of political truth seems to pervade the whole Grit Press. The Whig, which conventionally gives signs of returning reason, says:

"In Ontario the Conservatives are in dis-
tress because the Liberals, in the Govern-
ment and in the Legislature, are going to
meet too soon, and in order to save the
conservative a lot of trouble by defining the
position and electoral rights of certain per-
sons."

No, no, dear Whig. The Conservatives
are not in distress on account of the meet-
ing of the Legislature. What they are in
distress about, and so are the honest
electors of Ontario, is at the idea of a
Government deliberately calling Parlia-
ment together to legislate themselves into
office after being defeated at the polls by
the properly qualified voters of the provin-
ce. Why not go a little further, and kindly
save the courts a "lot of trouble" by
passing a law deciding that no bribery or
corruption existed at the late Ontario
elections, thereby sealing every Grit
who was elected in this province for the
next four years, and what a "lot of trouble"
and expense would have to be paid to
the sixty gents, who have to fight for
their political lives in the courts.

Even that independent (?) journal, the
Hamilton Herald, seems to have lost its
reason. It declares that "Mr. Hardy has
not committed a technical breach. He has
very cleverly blocked the Tory game."
Yes, he proposes to block "the Tory game"
by declaring that some eight or ten of
his supporters, who were likely to be
elected by the election courts, were not
elected, and thereby retain office. That
too, in the face of the fact that he him-
self has referred the question of the legal-
ity of certain votes to the judges of the
Court of Appeal for an opinion. Knowing
that their decision would be against him,
he calls the Legislature to confirm
himself in office. It is nothing less than
stealing seats in the Legislature and
Ministerial offices.

Such, unfortunately, is Grit political
morality in this age of Tambores, Lauriers,
Blairs, Siftones and Hardys.
How long is it to last?

WHEAT FOR A WEEK.

Summary of the Wheat Market Fluctua-
tions for the Past Week—The
Latest Quotations.

Chicago, Monday, July 25. The wheat market
was marked by considerable irregularity,
but has been chiefly characterized by an
advance of nearly 50 cents per bushel in
the price of July wheat. The market was
very quiet during the week, and the quotations
for the September and December contracts
were very close to those of the July wheat.

A FIRST REVERSE.

The Rolling Mill Bonus By-Law Turned Down Last Night.

Failed to Secure the Two-Thirds Vote—Will Come Up Again Next Meeting—Ald. Denmark's Law Carries—The Elevator Matter Laid Over—Lots of Talk.

The City Fathers last night considered matters of vital importance. The Council went into Committee of the Whole on report of the Executive Committee. The report of the Executive Committee was adopted after some debate. In regard to the recommendation that no action be taken in regard to the Bay Bridge, Ald. Bogart explained that Mr. Anderson, Receiver of the City, had been in the City on Friday night and intimated that the Township would take no action whatever, so the Committee did not think it wise for the City to do so.

In connection with the recommendation that the City pay half the cost of the proposed roadway, Ald. Bogart explained that the dredge had got through on Thursday and the only thing for it to do was to work at the roadway. It was thought that if the dredge was once taken away, we might never get it back. Mr. Lee, the engineer, estimated that at the rate of \$100 per day, the Harbor Commissioners would be paid one-half of that leaves only \$500 for the City to pay.

Ald. Grille asked if the bridge would be safe after the \$500 had been expended. The Mayor said that the estimated cost to make a permanent roadway was \$1,500. We would really get \$500 worth of work for \$500 for the services of the dredge were worth at least \$80 per day.

Ald. Doyle did not object to the utilization of the Island, but he objected to the City taking any responsibility without a report from a competent engineer.

The Mayor referred to the good material lying thrown up by the dredge. He read the correspondence on the subject showing that the plan had the approval of both the Department of Public Works and the Department of Marine and Fisheries. The dredge was now digging at the exact spot where the City was to be secured.

Ald. Starling and Ald. Luscombe engaged as to the nature of the responsibility which the City was to assume.

Ald. Harris commended the work being done by the dredge.

The item passed. It was decided to leave the completion of the band stand over for the present.

The Special Committee on leasing the elevator reporting laying an unpaid bill against the City for \$100.

Ald. Lot and Falkner had their usual little wrangle over this report.

Ald. Lot, Doyle, Starling, Chisholm and Grille all thought that Mr. Downey had not received a fair share. They claimed that a tender should have been given as submitted before, Mr. Downey's then being the highest.

Ald. Falkner and Bogart claimed that Mr. Downey had been given an equal chance, that their only purpose was to drive the best bargain possible for the city, and they pointed out that Mr. Cole's second offer was \$175 more than Mr. Downey's offer. Mr. Downey was asked to make a second offer, but did not do so.

Ald. Wallace thought the city deserved thanks for securing such a good offer.

Ald. Lot moved in amendment that the matter be referred back to the Market Committee, that further tenders be asked for and that report be presented at the next meeting of the Council.

Under the head of Enquiries Ald. Petty asked when they would repair a well on Wharf at Ald. Starling said that it was the duty of the Council to see that the well was repaired.

Stopped, Has It?

It was such a good watch. I never had it cleaned in five years. That is the remark we hear every day. Is it any wonder watches go to pieces?

A watch is a very delicate piece of mechanism, and to give satisfaction and wear it must be kept clean every eighteen months. Has yours been attended to? If not, bring it in. Our prices are as low as is consistent with good work.

PONTON SEES HIS BROTHER.

They Exchanged Looks a Long Distance Apart.

Reported Recognition of Mackie as a Companion of Pare and Holden—Movements of Detectives—False Rumors Contradicted.

(Globe's Dispatch)
Napanee, July 26.—Ponton's brother came to Napanee today and asked permission to see his relative. He was told by Officer Vanhousen that the instructions given to him were to permit no one into the prison except by order of the warden. The boy was very much disheartened, but he quietly accepted the decision. As he slowly left the goal he turned and saw his brother's face watching him from a steel-barred window. The recognition was mutual, and although they could not speak, the boys stood and watched each other. William waving his handkerchief through the bars until his brother jumped into the baggy of a friend and was quickly driven away. This was George Ponton's last day of summer vacation, and he had only a few minutes to shake hands with Will before returning to his work in the west, but even this was denied him.

Detective Dougherty returned here today with Edward Post, of Rochester, who at one time was a sectionman on the Bay of Quinte Railroad here. Post came here for the purpose of identifying Pare and Holden as two men who used to frequent his house, which was up the track from the railroad station. It is said that Mackie was also identified as being sometimes with the two tramps. Pare and Holden are responsible for the nicknames given Post. They used to go to his place for a drink of water, and were invariably told to go to the tub, which stood under the pump in front of the building. After some time they began to address him as "Tub" Post, and the name sticks to him yet.

Detective Dougherty went to Toronto today and Detective Wilks to Belleville. They will return in a day or two, and will then remain here until the investigation opens next week. Both these gentlemen and the Crown Attorney say that the story as to Ponton being allowed to see Mackie and Holden is a very serious matter. Baines to close the safe, thus giving him an opportunity to leave the inner doors open, entitles the originator of the tale to another guess. The story, like the tale of letters sent by Ponton to the Rochester woman, is absolutely untrue.

Local Notes.

Constable Sills and Detective Wilks were on the city yesterday, and were closeted with Chief Newton for a couple of hours.

Mr. Wilson, of Napanee, counsel for Robt. Mackie, was in the city yesterday, and returned with the officers on the early morning train.

Mr. E. Guss Porter and Col. Ponton went to Napanee on the noon train today. Mr. J. Cummins and Mr. T. McGinnis accompanied them, presumably to act as bailsmen.

THE BANK ROBBERY.

Both Sides Hard at Work and Profoundly Resentful for Trial—A New Mackie Theory.

Napanee, July 27.—Both parties in the bank robbery case are hard at work. The Napanee side is anxious to get the trial open to identify some of the prisoners. It is said that their chief object now is to identify Mackie as one of the tramps who hovered about here the week before the robbery. The theory is that Mackie some time came down from Belleville, spent the afternoon with Pare and Holden in the bush, and returned home in the evening. At the time that Holden was brought in on Saturday a family of four or five living not far from that grove were just coming out of the All, where they had been on an identification mission. Their story is that the tramps came to the house for water and were given a drink. One of the tramps, a man with a gun or candle, and one of the little girls remarked to Mackie in the cellar: "Oh, you are the man who had the safe watch!" Another man, apparently an Indian, has been seen to see them, but who the result is not known. The detectives have been busy every day, and it is now reported that they are all ready with their witnesses.

The lawyers for the prisoners also claim to be ready, that they have been ready and anxious for days. If these statements are correct, the chances are that the hearing will begin in real earnest on Friday morning.

No new prisoners have been brought in, but rumors are still flying about. One of these is a story that the authorities have notice to hold two cells in readiness on any account, but for whom is not known.

It is said that Mr. Porter, Ponton's counsel, accompanied by Mr. Wilson, in behalf of Mackie, is not only ready for Saturday evening and had an interview with their clients. Mr. Porter is reported to have given a very full and complete real good news about the case, but it does not appear what it is.

The prosecution now complain that these men should not be let in at such unreasonable hours. On the other hand, the detectives claim that the men in the jail authorities are made pretty uncomfortable.

To the Editor of the INTELLIGENCER.
Sir,—In my letter to the Ontario the fine should have been mentioned as \$25.00, in the last issue, the figures published were simply a misprint.

Belleville, July 26th. JOHN T. COUGHRAN.

PONTON WON'T COME OUT.

He Refuses to be Bailed by His Friends.

Will Stay in Prison Until he can get Out Without the Aid of Money.

(Special to the INTELLIGENCER)
Napanee, July 27.—When bail was offered for Mr. W. H. Ponton's release this morning, he informed his friends that he would not accept their kind offers on his behalf. He further said, "I will remain right here until I can get out without the aid of money."

Another Account.
Napanee, July 27, 2:15 p. m.—The Magistrate appeared at the parlor of turnkey Clarke at the goal at 1:30 to grant bail to the prisoner W. H. Ponton.

Messrs. Porter, W. N. Ponton and W. G. Wilson were present on behalf of the prisoner, with the two sureties, Messrs. Thos. McGinnis and James Cummins, of Belleville.

These bondsmen were accepted for \$5,000 each. Mr. W. S. Horrobin was present on behalf of the Crown and H. M. Denechee for the bank.

When the case was read to the two sureties and the prisoner, the latter thanked his two would-be sureties but declined their generous offer. "I do not intend to go out here until I am a free man," said Ponton.

The County Attorney picked up the bond and marched out.

Afterwards Ponton said to Mr. Cummins, "I told you when you were talking to me through the window on Saturday that I would not accept bail, and am very sorry you have been put to so much trouble."

Col. Ponton is very anxious that the prisoner's mother should be allowed to see her son and is endeavoring to get the permission from Mr. Horrobin.

Mrs. Ponton is expected down the end of the week, to remain in town until after the trial.

Railway Passes.

That Government official employees should have passes is claimed by many persons to be highly detrimental to a good honest administration of the Nation's affairs. By the use of passes, we are certain of this fact—that the use of passes, untested, and obnoxious mixture is injurious to those who use them; therefore, anyone using a pass should be made to feel that it is a disgraceful thing to use a pass.

ALBERT COLLEGE.

Important Changes in the Staff.

The Executive Committee of the College at its meeting yesterday made two important changes.
Mr. J. H. Faulk, B.A., was appointed Prof. of Mathematics and Physics, to take the place of Mr. N. L. Massey, B.A., who has accepted the Principalship of Niagara High School. Mr. Faulk has just graduated with most distinguished honors at the University of Toronto, having taken the first place in first-class honors in Natural Science throughout his entire course. He has also won the Edward Blake and the Daniel Wilson scholarships in the respective years.

He holds a Senior Leaving Teacher's certificate and has been a successful teacher. He taught for one year at Albert College previous to taking his B.A., with very great satisfaction to all concerned.

He has, during his University Course, been prominent in athletics, having been on both the foot ball and hockey teams. He has been President of the Literary Society; editor of the Science Department; and has spent the summer as an assistant teacher at the celebrated Toledo Business College, which has an enrollment of over 600 students and will, when the College reopens in September, introduce the methods used in that school into his work at "Albert."

The College authorities are fully determined to employ as teachers only such those having superior qualifications. The work of the College will be maintained to the highest degree of efficiency.

PONTON REFUSES BAIL.

Will Not Leave Jail Except as a Guiltless Man

Highly Dramatic Scene—Magistrate Dally Shakes Hands With the Prisoner—Friends of the Accused Regard His Conduct as a Crowning Proof of Innocence—Bail Not Offered For Mackie.

Naperville, July 27.—To-day William Ponton, being offered his liberty, refused it. He was given a legal right to step from his cell and go wherever he wished. Money was offered to back his offer, saying that he would never leave prison walls except as a man whose innocence had been proven. The young man's passionate words seemed to startle even his own legal adviser, although that gentleman had not a few moments before held a long conference with him. This new move on the part of the defence has had various effects on public sentiment. The predominant one being the strengthening of the conclusion that Ponton is an injured man, who is so confident of his ultimate vindication that he is willing to risk the consequences of his conduct. The other conclusion, and it is one that, although held by the minority, is still voiced, is that the prisoner is a splendidly brave man, who, when called by his attorney, Mr. Porter, and that the little scene to-day was the result of his dramatic and two which occurred shortly previous to Ponton's appearance in court.

It is only fair to say, however, that this opinion has its origin with those who have the prosecution in charge, and their view of the situation is caused partially by the knowledge that Ponton knew his friends were coming to his aid, and that he was released, and, concealing his wish to remain in jail, he allowed all the formalities to be completed and a special court called before he entered his dramatic objection. If it was planned, it was well planned, and carried out to the bringing of Mr. Ponton to the station at Belleville to meet her son when he would arrive on the train.

THE BONDSMEN.

The party from Belleville arrived about noon. It consisted of Messrs. E. Guss and W. N. Ponton, counsel for the prisoner, James Cummins and Thomas McGinnis, the bondsmen. A visit was paid to the office of the acting Crown Attorney, where the services of Mr. Cummins and Mr. McGinnis were proffered as securities in the sum of \$10,000. A despatch was sent to Toronto inquiring as to their rating, and an answer being received immediately, they were both accepted. The recognizances were made out and then messengers were sent out to locate Magistrate Dally, so that the formal proceedings could be concluded in time to allow the party with the young man, who the Magistrate was found at his residence and was driven quickly to the jail office, where the bondsmen, the prisoner's counsel, his uncle, the acting Crown Attorney, the Solicitor for the bank and the Chief of Police awaited him. Court was quickly opened, and the prisoner ordered to be brought forward. He was accompanied by the Chief of Police and the "turnkey" of the jail. Magistrate Dally asked him to take a chair, and Ponton sat down while Mr. Heron, the turnkey, stood behind him, which with much legal verbiage, set forth that Messrs. McGinnis and Cummins owed the Crown the sum of \$10,000, which Ponton would appear before the Magistrate on Monday at 2 o'clock, the time set for the preliminary hearing.

NO BAIL FOR MACKIE.

The party who look to Belleville as a centre in a much different frame of mind from that in which they expected to make the trip. There was no bail offered for Mackie. The only reason offered for this was given by his lawyer, Mr. Wilson, who said that he considered the time too short between the arrest and Monday next to go to the trouble of securing the release of his client. Mackie would not doubt like to be free if only for a day, but he was forced to abide by the decision of his counsel. The hearing of the preliminary investigation will begin, as stated, on Monday next at two o'clock. It will probably be held in the court room, and as there are a number more witnesses to be heard than at the last investigation, the time occupied will probably be a great deal longer. Par will take the stand, and his evidence will prove the most interesting portion of the case. If any aspect to meet a most severe test in cross examination and flaws in his story have already been pointed out by the defence, been found. To-day through Mr. Porter the mother of Ponton presented a request to Magistrate Dally that she be allowed to visit her son when she comes to attend the investigation next week. The Magistrate told Mr. Porter that he was not authorized to grant the request, but that he would be glad to open on Monday, when popular interest, which has been kept at a high point until tonight, will again be excited.

WHAT DOUGHTERY SAYS.

Robert Mackie Not a New Figure in the Robbery Case.

Detective Dougherty, of New York, was at Toronto yesterday. He spent the greater part of the day with Mr. R. D. Gamble, general manager of the Dominion Bank, when Pare gives his statement of the preliminary investigation. It was a revelation to every one, said he, and I do not think anyone will have room for doubt that he is telling the truth.

Mr. Dougherty also indicated that Mackie's name was not so new in connection with the case as the public imagine. He says that Ponton was asked questions about his relations with Mackie at the time of his trouble last fall, and that such queries embarrassed Ponton very seriously.

DETECTIVE WILKES

Again in the City—Wants to Know About Holden.

Detective Wilkes, the bashful-looking, smooth-spoken Pinkerton man, was in the city again yesterday morning. I had another long chat with Chief Newton. It was learned that his present trip to the city was to gain information as to Holden's current whereabouts. This is a most important link in the chain of evidence, for it can be proved that he was here visiting Mackie, then the circumstantial evidence against the latter would be strong.

Chief Newton, in conversation with a reporter, remarked that he found Wilkes a quiet, gentlemanly and most scrupulous man, and he believed him incapable of the slightest wrong. Some people have charged him with. He complained of the great difficulties he met with in working upon the case, owing to the determination of the people in this vicinity to say nothing which would incriminate him.

Wilkes and Constable Sills left for Niagara on the 10-47 train.

G. T. R.'s New Rules.

THIS ONE SHOULD BE ENFORCED.

Every employee of a railroad is more or less at times compelled to ask for leave of absence on account of illness. The loss of 90 cents out of a hundred is caused by kidney trouble, which in turn is caused by irregular hours, cold lunches, and constant jolting the train. Loss of time and money would be saved if they used RYKEMAN'S KIDNEY CURE, and the following SWORN testimonial will bear out the statement.

G. T. R. Brake-man, William Walker, Hamilton, Ont., declares under oath that he had "Railway Kidneys" so severely that he had to leave his work. His medical treatment, was fly blistered, and had not been applied, without success.

He is completely cured, and by RYKEMAN'S KIDNEY CURE.

Police Notes.

Kate Wellman, the woman arrested here on Tuesday and taken to Trenton, was released this morning. She was released for Belleville and walked the whole way down through the early in the evening and found her way to the jail.

In response to her appeal the Magistrate at 10 o'clock released her and the happy couple departed in search of greener pastures.

Wm. Dunsen and Mrs. Dunsen, who kept a boarding house at Crockett, were accused of selling liquor without a license. The prosecution claimed that they sold liquor to the boarders while Mrs. Dunsen asserted that the liquor was drunk on the premises but purchased elsewhere. The case was adjourned for a week. J. F. Wills for the defence.

Frederic and Jim Whelan were allowed out of the cells last night on condition that they appear this morning. Whelan showed up still comfortably lodged, but Cero was not to be found. A warrant was made out for his arrest.

THE PROPOSALS OF PEACE.

Everything Else Lost Sight of in Washington Now.

A Good-Natured Rivality as to the Office of Ambassador for Spain to the United States. The Ambassador to Spain, M. Cambon Directly Instructed From Madrid—Speculation as to Terms.

Washington, July 28.—In diplomatic quarters Spain's peace proposals, made through the French Ambassador, is the absorbing topic, and the answer of the President is awaited with keen interest. By diplomatic sources their interest only yesterday by calling the details of the formal proposition submitted by Spain's ambassador. This developed several features of the question which had not been entirely clear before.

In the first place, no foreign Government, outside of France, had been consulted by Spain in this overture for peace. It can now be stated, however, that the formal proposition submitted had been under consideration at Madrid for five days previously, during which time the British as well as the French authorities were cognizant of the fact that Spain was about to sue for peace.

A Good-Natured Rivality.

This being settled, it appears that a good natured but keen rivalry sprang up between Sir Drummond Wolff, the British Ambassador at Madrid, and M. Cambon, the French Ambassador there, as to which Government should have the honor of initiating the movement designed to restore the peace of the world. According to the cordiality existing between the Government of Great Britain and the United States, it was felt at first that Sir Drummond Wolff would be commissioned to approach the United States, acting at Washington through Sir Julian Pauncefote.

But Spain appears to have preferred the intermediation of the French Government, and as a result Sir Drummond Wolff was entrusted to the French Ambassador at Washington.

Another essential feature of the peace proposition made by Spain is a matter of fact, the Spanish proposition does not mention the word "peace." There is no request or suggestion in it that the President shall state terms of peace. The distinct enquiry made by Spain is whether the United States will open negotiations toward the settlement of the war and the arrangement of peace. It is a question of fact, that if the President answers in the affirmative, then the negotiations for terms will be opened between commissioners or parties clothed with the responsibility of bringing about a settlement.

The Reference to Armistice.

Neither does the Spanish proposition contain any reference to "armistice." At the same time, it is framed on the idea that if peace negotiations are opened, there will be a suspension of hostilities, pending an arrangement upon the exact terms of peace. In this connection there appears to be a distinction between the words "armistice" and "suspension of hostilities" for while the latter is not asked or expected, it seems to be taken for granted that a suspension of hostilities will be a necessary preliminary to the peace negotiations.

The Spanish proposition is distinct with all the solemnity and formality of a Government act, despite the cable report from Madrid that the peace proposal is a "private" nature. The instructions to M. Cambon bear the official signature of Duke Almodovar de Aja, Spanish Minister of War, and the proposition expresses the desire of the Cabinet and Government that the peace negotiations be opened, they are given the added solemnity of approval and earnest personal request by Queen Regent Maria Christina. These features are all in question in the minds of officials here as to the regularity of the Spanish proposition, and the value of the offer of the Government of Spain. Aside from this, M. Cambon is too much of a veteran in diplomatic life to have embarked on any private overture toward peace.

The Next Move Will Be Spain's.

Since the conference between the President and M. Cambon, both the French Government and the Spanish Government have been fully apprised of the action taken at Washington, and it is not improbable that Spain within the next two or three days will take another important step forward by voluntarily suggesting what terms of peace she will regard as consistent. These, of course, will be initiatory, and will be designed as a sort of opening move toward bringing the two Governments together on final peace conditions. From the standpoint of the United States it is for the first time that the Spanish proposition, as such, is the one most interested in terminating the war. It will then be the duty of the United States to answer the terms of the Spanish proposition, and the terms are acceptable, and perhaps to suggest counter terms.

Yellow Jack's Big Influence.

The yellow fever conditions are being suggested as one reason for both to consider the war, for it is being urged that the material advantages which the United States will gain by continuing the war will be heavily offset by the trouble of the disease.

Another point being urged in favor of peace settlement is that the aspect of the war will be even more gloomy, more a tribute to the high aims of the Government, if it is done in a spirit of magnanimity with the enemy.

It is said also that Spain is so completely humbled and so powerless to continue the war, that the United States can secure through peace negotiations everything which is a prolongation of the war would ultimately make possible.

A "POLITICALLY BATTERED LOT."

The Ontario Government is composed of seven members.

Two of them were defeated at the polls, but still hang on to their portfolios, in defiance of the principles of Responsible Government.

Four of them are charged in the courts with having won the seats they hold by corruption.

One of these four will sit in Parliament by virtue of the constable vote.

Mr. Hardy calls the Legislature together to legislate the doubtful constable vote, thereby keeping this one of his colleagues in office.

It is any wonder that a Montreal contemporary exclaims, "A more politically battered lot never proposed to hang on to their places as advisers of the Queen."

Why, Mr. Hardy, make two bites at a cherry? You can legislate the corrupt elections of your colleagues, as early as you can legislate the constable vote, by doing which, as suggested by one of your organs, you would "save the court a lot of trouble."

The Huntingdon Glenier, the principal Grit organ of Quebec outside of Montreal, in discussing the question, says: "The main purpose in calling the Legislature is to adopt an amendment to the election act, declaring constables have a vote."

"Under ordinary circumstances there could be no objection to this, but the circumstances are not of an ordinary character."

"At least eight Liberals will lose their seats if the courts decide constables have no right to vote."

"While the actions to unseat these members are before the courts, the House meets to change the law, and the Ministry expects to be able to do so by the vote of these eight members."

We have therefore not only retroactive legislation, which is always open to suspicion, but retroactive legislation carried by the votes of the men who are to be benefited by it."

"Practically these eight men by their vote on this amendment to the law will elect themselves as members."

"That is the intention of calling a special session, and of the vote these men will cast."

Many are under the impression that, public opinion being so strong against the guerrilla maneuvering of Hardy, he will be defeated. Not a bit of it. There are eight men whose seats depend upon the legislation of the constable vote, and they, for the sake of holding on to their seats for four years, will vote that black is white, if necessary to that end.

Hereafter Ontario will have a "Constable Government."

PROSPERITY AND GOVERNMENT.

The Globe devotes an article, under the above heading, to prove that prosperity does not depend on the policy of a Government.

The article is timely, both as a rebuke to the Grit press for claiming that prosperity has been revived in Canada by the policy of the Laurier-Tarte Government, and to the Globe itself, for its general declaration to that effect in the "Splendid Record" of our present rulers, which the INTELLIGENCER has been reviewing, and to our contemporary's special reference to the state of affairs in the town of Galt in that connection.

It is both instructive and refreshing to witness the application of the rod to its own back by the chief organ of the Government.

Humboldt Cannot Eat or Sleep.

Washington, July 28.—The health of Prince Humboldt is again suffering from his food for three days and suffers from insomnia. He has been unable to sleep for three nights and is unable to eat or drink. Besides his physician, Dr. Schweninger, Countess von Helldorf and William Humboldt with their wives are now at Friedrichshagen.

Later reports confirm the statement that the Prince's illness is serious.

Grant Hall Dismissed.

Monroton, N.H., July 28.—Grant Hall, mechanical foreman of the Intercolonial, and brother of Hon. J. H. Hall, Montpelier, has been dismissed, and is to be taken by Fred G. Hunter.

Hall, who was dismissed from the position, has never meddled in politics, and against him it is said other dismissals will follow.

THE PROMOTER.

Hosley, the Chief of Police, tells some startling facts of how Dunlop, the Co. Work out.

London, July 28.—The public examination in the Bankruptcy Court yesterday afternoon, of the accounts of the Dunlop Company, for whose property, on his own application, a receiver was appointed on July 25, attracted a big crowd of people. The debts attributed to the failure chiefly to the floating of the Dunlop Tire Company, Mr. Hosley said the names of the directors cost £200,000 to £300,000, including Lord Albemarle £12,500, and Lord De La Warr £25,000.

In connection with his testimony, Mr. Hosley said that the Dunlop Company had been "grossly deceived" for people connected with new papers without number had been divided thus far, though it is expected they will be made public in due course of time.

Later during the course of his testimony, Mr. Hosley detailed the payments he had made to newspapers, including £10,000 to the Toronto Evening Mail, £10,000 to the Toronto Star, £10,000 to the Toronto ANGLO-AMERICAN LEAGUE.
British Will Await Action From the United States End.
London, July 28.—A private meeting of the Executive Council of the recently formed Anglo-American League for securing "cordial and constant co-operation on the part of the two nations" was held last evening.
The Duke of Sutherland, Earl Grey, the Earl of Jersey and other prominent members were present. Great satisfaction was expressed at the progress of the movement on both sides of the Atlantic, and it was decided to await the action of the projected committee in the United States.

Lord Herschell in America.
New York, July 28.—Lord Herschell, P.O., Q.C.B., formerly Lord High Chancellor, the head of the British Commission to settle the differences between the United States and Canada, arrived in New York country yesterday on the White Star liner Tonician, from Liverpool. He was accompanied on the voyage by his son, Lord Herschell declined to speak of his mission on this side of the Atlantic.

Coal Prices Go Up.
New York, July 28.—The presidents of the Anthracite coal roads, at a meeting held yesterday at 141 Liberty street, resolved to raise the prices of coal to full schedule rates and to reduce the output for August to the lowest point the trade has ever known. The miners who now work on an average two days a week, will work during August perhaps only one day each week.

For the Fast Line.
Montreal, July 28.—The Government having now disposed of the Peterboro contract, the existing steamship companies, including the Alliance, are preparing to submit new proposals at Ottawa as soon as the collapse of the Peterboro project has been received with great success. The general feeling is that they may do so quickly as possible, as they have already met such keen opposition to nothing or quick transit to Canada."

Mrs. Chamberlaine Agnew.
Port Arthur, July 28.—The Canadian steamer Chamberlain, Junior laden, left Port Arthur for Port George, N.S., about seven o'clock Sunday on Monday morning in Lake Superior. After testifying most eloquently before the steamer was released yesterday.

Dusky Queen Has Cancer.
San Francisco, July 28.—The Post says Queen Titokowana, who recently sailed here for Honolulu, has been suffering from a cancer on the right side of the neck over the jugular vein for many months, and she can eat no food since June.

The feeling of buoyancy produced by the action of Dr. Ward's Blood and Nerve Pills is remarkable. One feels bright and active, energetic and full of spirit and vim. Rich red blood fills the veins, and the nerves tingled with the sensation of youthful life and vigor.

TREMBLING HANDS AND SHAKY MEMORY. A HAMILTON MAN EXPERIENCE WITH A NEW MEDICINE.

DEAR SIR,
I have spent half a fortune in doctors' bills, all to no avail. These pills seemed to hold the best of danger at once, and they commenced to possess a remarkable influence upon me. The violent palpitation of the heart, the trembling of the hands, the loss of memory and general collapse of the entire system, have yielded to Dr.'s Blood and Nerve Pills. Grant were there ten times as much more of them than you sell, I would give every cent of my wealth for them if they could save me. Before writing you I was a miserable wreck. Today I am a well man.

Yours truly,
THOS. PLIVN, St. Eugene Street, Hamilton, Ont.

port was between 15 and 17 knots. The crew of the ship are given credit for doing all that was possible in the direction of searching for survivors. It is of much importance to all concerned, says the commissioner, that steamers carrying a large number of passengers between New York and European ports should, if

crossed, proceeding at a high speed, with their vessels in a fog, thinking of the past, and the thing which might just as well come from the races altogether. Some steamers break in this way, and in fog, even upon the passengers who have crossed the

There is good reason to suspect that this is the same vessel which was reported as a suspicious kind of adherence, and many of those who, it is thought, approved of the capture of the vessel, and of the use of any means in the course of the capture, are now in the hands of the Government. It is to be regretted that the vessel was not captured at a safe rate for the Government, which, if adopted, would have been a great advantage. The vessel was not captured at a safe rate for the Government, which, if adopted, would have been a great advantage. The vessel was not captured at a safe rate for the Government, which, if adopted, would have been a great advantage.

The Morgue Was Missing Fast.

The Morgue, it is stated, was running at a very high rate of speed, when it was sighted by the British steamer, and was estimated upon account of the thick fog to be going at a rapid rate. It was thought that it was heading for the coast land down in the Atlantic pilot, but it was not.

It was considered the steamer to be 100 miles north out of her course, but Capt. Smith is of opinion that the distance was not so direct from Sandy Hook to longitude two west, and latitude 40 north, and following the coast of the United States, and if it was so roughed, then such sharp curves would be necessary to reach the Hook Lightship, east of Ireland, or the Solly Islands, as the coast may be. On the other hand, it may be that the steamer should go 80 miles to the northward of the Hook Lightship, and then turn south, no fog or iceberg would be encountered.
